JAPANESE PRESS FORWARD TO  
ENGAGE RUSSIAN FORCES  
IN MANCHURIA.

EXPECT NEWS OF VICTORY

ISLANDERS CONFIDENT THAT  
THEIR SOLDIERS WILL DE-  
FEAT CZAR'S ARMY.

London, June 21.—The correspond-  
ent of the Daily Telegraph at Tokio  
sends the following: "The Japanese  
are continuing their victorious advance  
in Manchuria. The Russians have  
been completely outflanked on both  
wings, and news of Japanese victories  
may be expected shortly.

"The Japanese have considerably  
over 500,000 men in the field. Their  
preliminary operations began as far  
back as May 20.

"Two significant announcements  
have been made—the first that the  
Japanese consul general has informed  
the viceroy of Liangkang that Ad-  
miral Uru's squadron intends to  
cruise in the Yangtse river; and the  
second that the British squadron at  
Hongkong will proceed to Weihaiwei  
and begin gun practice off Shantung  
province on June 22.

"Your correspondent with the Japa-  
nese headquarters reports that Cos-  
sacks were repulsed with heavy losses  
near Lianhuabao June 16, but were  
considerably reinforced at Leikaton,  
and that another raid is expected. In  
the direction of Hallincheng the Rus-  
sians have been reinforced by three  
divisions. General Madoloff com-  
mands the advance lines and is trying  
to check the Japanese northward ad-  
vance. The Japanese expect good  
news shortly.

"The Russians have constructed  
three strong bridges across the Tu-  
men river."

IN FACE OF STEADY PRESSURE.  
Diplomatic Measures for Peace Con-  
tinue in Russia.

St. Petersburg, June 21.—Diplomatic  
measures for the peace conference  
are continuing in the face of the  
steady pressure brought to bear by the  
militant factions. General Linevitch  
has again wired the emperor saying  
that victory is almost at hand and  
begging that he and his army be not  
deprived of the opportunity to restore  
the prestige of Russian arms.

Minister of War Sakharoff had an  
audience Tuesday with the emperor  
at Peterhof, and it is said that he pre-  
sented to his majesty measures for  
another mobilization of troops and  
urged the advisability of their adop-  
tion.

PROBABLE DATE OF MEETING.

Believed Peace Envoys Will Assemble  
in Washington on Aug. 1.

Washington, June 21.—The president  
left for New England Tuesday night  
and until Friday there will be a lull in  
the peace talk, though the exchanges  
between Russia and Japan will con-  
tinue through the state department  
and Ambassador Meyer. By the time  
he gets back to the White House, Mr.  
Roosevelt expects the two govern-  
ments will be ready to announce their  
plenipotentiaries and the date of their  
meeting, which probably will be Aug.  
1. Japan has assured the president  
that her commissioners can be in  
Washington by that time and unof-  
ficial advices from St. Petersburg say  
the date is satisfactory to Russia.

TRIED TO SINK THE BATTLESHIP.

Russians Made Things Lively for Jap  
Prize Crew on the Orel.

Victoria, B. C., June 21.—The steam-  
er Empress of China brought an ac-  
count of the exciting experience of the  
Japanese prize crew on board the cap-  
tured Russian battleship Orel in  
bringing the prize from the scene of  
battle to the Maizuru naval station.  
The officers and men of the Asahi and  
Kasuga, although they had fought for  
two days and two nights without  
sleeping, were placed on the sinking  
and shot-riddled battleship with a  
mutinous crew endeavoring continually  
to obstruct navigation of the prize  
and if possible to destroy her. One-  
half of the Russians were transferred  
to the Asahi and Kasuga, but the re-  
mainder outnumbered the Japanese  
placed on board. Lieutenant Naka-  
gawa, in charge, at once ordered the  
Japanese marines with loaded rifles  
to stand over the Russian sailors  
herded forward, and bluejackets were  
placed at other points to guard the  
ship.

When night came, a Russian sea-  
man dropped an iron pin into the elec-  
tric dynamo, wrecking it and causing  
all the lights to be extinguished.

Great excitement followed, during  
which some of the Russians again  
opened the safety valves and the wa-  
ter flooded, causing the ship to list to  
port. Some tried to jump into the

## BURIAL OF GENERAL GOMEZ.

Body of Cuban Patriot Taken to Its Last Resting Place.

Havana, June 21.—The body of General Maximo Gomez was interred Tuesday evening after a funeral service so replete with demonstrations in honor of the dead general as to lead in several instances to scenes of disorder. The most serious trouble occurred while the great procession was passing Central park, when some reckless young Cubans rushed toward the field gun caisson on which the general's remains were borne, demanding permission to carry the body. They were thrust back, and then a bigger crowd rushed forward and swayed back and forth across the broad street, temporarily disorganizing the procession.

At the cemetery there was considerable disorder. The bulk of the great crowd restrained from passing through

the cemetery gates until the arrival of the procession, and this resulted in much crowding and pushing, and in several charges by mounted police with no worse result, however, than some bruised heads and bodies. The arrival of big forces of rural guards soon resulted in the restoration of order, and the burial of the remains of General Gomez was accomplished just before sunset in the presence of a great but quiet and reverent multitude.

The procession was the largest since the establishment of the republic.

## Another Bank Suspends.

Dunkirk, N. Y., June 21.—The State Bank of Forestville closed its doors Tuesday owing to the failure of the Fredonia National bank. Henry G. Allen is cashier. Fred R. Green, cashier of the Fredonia National bank, was one of the founders of the Forestville institution.

## ACCEPTED BY MORTON

RESIGNATIONS OF JAMES W. ALEXANDER AND JAMES HAZEN HYDE.

New York, June 21.—Following the establishment of a new and independent investigation of the affairs of the Equitable Life Assurance society, by direction of Paul Morton, chairman of the board of directors, came the announcement Tuesday night by Mr. Morton that he had accepted the resignation of James W. Alexander as president and James H. Hyde as first vice president. These resignations, with those of Second Vice President Tarbell, Third Vice President Wilson, Fourth Vice President McIntire and

Assistant Secretary Thompson, were placed in the hands of Mr. Morton at the meeting of the board of directors at which he was elected chairman with plenary powers over the affairs of the association. The new chairman announced that he would hold them in abeyance until he had time to acquaint himself further with the affairs of the society. Mr. Morton refused to give any reason for his acceptance of the resignations. He said the resignations took effect at once. Inquiries at the residences of Mr. Alexander and Mr. Hyde elicited the information that no statement would be given out by either of those gentlemen.

**DR. A. W. CHASE'S NERVE PILLS**

The man who hesitates, whose eye is  
dull, whose step is slow, whose mind is  
sluggish, whose hands tremble, is not  
the man whom an employer seeks. It is  
the bright man, the man with the clear  
eye and brain; the active man, full of  
energy, life and vigor, whose very man-  
ner and presence breeds success, that is  
sought for and snapped up as soon as  
seen, and it seems almost pitiful that  
first class, victims of success of some  
sort, should exist, when it needs but a  
thorough course of Dr. A. W. Chase's  
Nerve Pills to round them into the old-  
time feeling of physical, intellectual  
and manly vigor again.

**Mr. F. H. Hoyt of No. 724 6th Ave.**

**New Brighton, Pa., says:**  
"I used to have a hand so steady I  
could write the Lord's prayer on a  
twenty-five cent piece—then as a result  
of overwork and overstrain my eyes  
gave out and my hands and nerves gen-  
erally became trembly. I was restless  
and could not sleep. I certainly was in  
bad shape and lost my ability to write—  
could just scrawl. I heard of Dr. A. W.  
Chase's Nerve Pills and got some and  
they took hold immediately. I began  
to sleep—gain strength—my nerves  
grew steady—and my eyesight improved  
greatly. Today I feel finely and can  
again write as well as ever, and that  
means a very steady nerve." 50c a box

## THE HIGH WATER CAUSES ACTIVITY

On Account of the Excessive Rains  
Water in the Mississippi Has  
Risen Rapidly

## DAMAGE FEARED AS RESULT

Water at Dam Here Thought to  
Be Two Feet Higher than the  
High Water Mark.

From the present rapid rise of the water in the Mississippi river some trouble is anticipated at different points. The river raised nearly half a foot last night and it is still on the rampage, and there is no telling what the outcome will be.

Not since Supt. Peterson's residence in Brainerd has the river been as high as it is at the present time. Two of the large flood gates at the dam are open and still the water is running way over the sluices.

The rapid rise in the water is due it is thought to the excessive rains of the last week or two and it has caused the Mississippi to overflow its banks in many places. The condition up river is even worse than right here at Brainerd and considerable anxiety is felt at Aitkin. They have wired Major Derby, of St. Paul, one of the government engineers, for assistance in the matter and he has wired back that the relief that the reservoir system can furnish will be given at once.

There is no serious effects at the electric light plant at the mill so far, but every preparations are being made to withstand as much as possible any serious pressure which might follow a still greater rise.

If the water continues to rise serious damage will result at the pulp mill of the Northwest Paper company. It was reported from there this morning that the water was at least a foot and a half or two feet above the high water mark. This is higher than it has been for years.

General Mackenzie, chief of engineers, of Washington, is experiencing in a smaller degree the difficulties Major Derby is having with the mill men and others along the upper Mississippi in regulating the flow from the reservoirs to suit all interests involved. He says to a representative of the press:

"The effort of the engineer in charge of the reservoirs is to keep the river at the ordinary low water stage. In flood times it is difficult to do that, and in the midsummer it is often more difficult. But generally speaking, the low water stage of the river is maintained, and that is about all that the engineer officer in charge can do, no matter how the conflicting interests may be affected."

There was a report that the big government dam at Cross Lake had gone out, but this report has not been verified and it is now thought that there was no foundation for the rumor.

## ST. CLOUD HAS CENSUS WAR

Saloon Keepers Fear Population Will Run  
Up Over 10,000 and that License  
Will Be Raised.

St. Cloud, Stearns county, is having a fine young civil war to itself over the state census. The present trouble is the sequel of a similar domestic ruction which broke out into full bloom five years ago at the time of the national census.

The saloonkeepers and their henchmen form one party and they fear the town will show a population of 10,000. On the other side, the elite of the village and the anti-salooners, who are out to make the town over 10,000. The census belli is the matter of saloon license. If the town shows 10,000, the license may be increased from \$500 to \$1,000, which accounts for the activity of the beerstore proprietors.—Minneapolis Journal.

## PULL DRILLS OFF OF TWO SECTIONS

Pickands-Mather Co. Said to Be  
Satisfied with Explorations  
on Sections 8 and 10

## INDICATIONS OF BIG DEPOSITS

On the Sections and no Further

Drilling is Thought to Be  
Necessary.

It was learned in the city this morning that the Pickands-Mather company representatives have decided to do no more exploring on Sections 8 and 10 in 45, 29, and the drills are to be taken out at once and worked on other sections. They are satisfied with the indications on these two sections and are said to be so thoroughly convinced with what has been found that they deem it but waste of time to do any more exploring. The Gregory company is getting ready to do some drilling on the Swartz property, just at the edge of the city, and it is said they will start work in a few days.

H. Jarchow was in the city again yesterday and is busy getting things in readiness to sink the shaft on Section 8. He says it will be several days before all the material necessary to start the work can be hauled to the premises, but as soon as it arrives work will be pushed rapidly.

The Northern Pacific has men on the ground and active operations will commence at once in exploring their lands.

The following is taken from the Aitkin Age:

"Interest in the iron finds in this vicinity is becoming more general and the appearance of a representative of the Pickands-Mather Co. in town Saturday added to this interest. It was learned that he was trying to get a lease on the H. S. Nelson place 21-47-25 near Rabbit Lake and a report is current that prospectors have found what promises to be paying iron in that country.

"The Pickands-Mather Co., who are trying to get this lease, have men on the ground near Deerwood and will sink a shaft 12x20 and 150 feet deep. This is on S 49-29.

"On Saturday a contract was awarded in Duluth by representatives of the N. P. Ry. for the operation of four drills on this range in the Deerwood country.

"While the operations around Deerwood serve to strengthen the belief that the prospectors are at last getting close to the deposits they have been looking for during the past two years, the real interest here is more noticeable since activity commenced about Rabbit Lake. This is getting pretty near home.

"The Oliver company has a representative on the ground and are keeping a close watch on all that is going on, but what they are doing themselves is not known."

### Embroidery Club Organized.

Mr. Tsuneo Takahashi, the Japanese embroidery expert, who has been giving instructions at the H. P. Michael Co.'s store the last five days closed a very successful engagement yesterday. He had over one hundred and fifty ladies in his classes. He closed with a lecture yesterday afternoon which was very helpful to any lady doing art needlework.

The ladies who received instructions showed their appreciations by presenting him with a Brainerd souvenir spoon. He assisted the ladies in organizing an embroidery club which they will call the Taka Embroidery Club. These clubs are organized in the large cities and are named in honor of Mr. Takahashi. The club will meet twice a month at the H. P. Michael Co. store, the first meeting being next Tuesday.

Mr. Michael will have a piece of Mr. Takahashi's work at the next meeting which was in the St. Louis exhibition and is valued at \$600. The following are the club's officers:

President—Mrs. Elizabeth Gibson.

Vice President—Mrs. James A. Wilson.

Secretary—Mrs. Ed. P. Slipp.

Assistant Secretary—Miss Mayme Bolin.

Treasurer—Mrs. Fred Luken.

Mr. Takahashi spoke of the value of art needlework. Art of any kind is a factor in the elevating of the human family and art needlework plays no second part as it inspires neatness in the home. It makes the home more attractive to all members of the family.

## TRIM THE CROOKS IN SECOND GAME

The St. Brainerd Team Won Handily  
Yesterday With "Lefty" Hanson in the Box.

Crookston, Minn., June 21.—The St. Brainerd team won handily from Crookston yesterday by a score of 3 to 1. "Lefty" Hanson was in the box for the St. Brainers and let Crookston down with but five hits. They never had a look in for six innings when they managed to score.

#### PRESIDENT ABELES TALKS.

The following is what President Abeles has to say to the St. Cloud Journal Press representative:

"There seems to be but one thing to do," said President D. C. Abeles this morning, in speaking about the future of the baseball club. "We have spent \$1,500 subscribed by the business men of the two towns and have reached the end of our rope. The only alternative is to go out and solicit subscriptions from our business men. I will not do this again. They have given fairly liberally and there does not seem to be a general demand here for professional baseball. The team will be kept together until at least July 1 as it is making expenses while away on the road. Then I think it is very probable that the franchise will go to Superior. The city across the bay from Duluth wants the team and it is said to be a better baseball town, despite the population, than Duluth with its 70,000 people. We should have something for the \$500 that we paid into the Northern league treasury, but the magnates evidently know that we have reached the end of our string and will not give us anything, contenting themselves, as it were, to starve us out. The attendance at Crookston is no better than at St. Cloud, but there a subscription of \$3,000 was taken up and the city can keep the team going probably for another month before the original fund is entirely exhausted. A letter from Edward Hammer, with the team as manager, told that only 63 paid admissions saw the game Monday at Crookston. This is the story of the league, and there seems to be no actual demand among the patrons of baseball for league baseball in the greater number of towns in the league."

#### BY MUTUAL CONSENT.

Swedish Council of State Approves Proposal for Dissolution of Union.

Stockholm, Sweden, June 21.—The council of state, at a meeting during the day, adopted a proposition which will be presented to the riksdag. According to the best information the main points are that Sweden refuses to recognize the one sided dissolution of the union by the storting, but the government asks the riksdag for authority to enter into negotiations with Norway in order to establish the basis for a dissolution on which both countries can mutually agree and the amicable relations of the two countries be maintained.

#### Crawford Jury Still Out.

Washington, June 21.—The case of William G. Crawford, accused of conspiring with August W. Machen and George E. Lorenz to defraud the United States in connection with a contract for supplying the postoffice department with letter carriers' satchels and straps, was given to the jury late in the afternoon. It had not been able to agree upon a verdict at 8:30 p. m. and was then locked up for the night.

#### Third Moose at Duluth.

Duluth, June 21.—Another moose from the north woods, the third seen in this city this year, ran into the city in the morning, but owing to the close pursuit of two men in a rowboat, who drove the animal to the shore from the lake at Forty-fifth avenue, it made a lively trip through Lakeside and vanished in the woods.

Said that "Pea" Vine will Run the  
Same as on the old

## VERY UNSATISFACTORY SERVICE

As the Trains Now Run and Supt.  
Kline Says that Change  
will be Made

In addition to the change in the passenger service between this city and the twin cities, which has not proven a howling success, the officials switched the freight trains around also that there was never anything sure about the way things run. The old "Pea" vine which left in the morning for the south about 7 o'clock and returned in the evening about four was taken off entirely and another train which got in from the south in the morning and left for the south about 4 o'clock in the afternoon was substituted. Now it is said that Supt. Kline, who seems to be the whole thing as a real "fixer" of schedules, has given it out that the "Pea" vine will be back again. This will help some, for heaven knows Brainerd is tickled to death to get most any concession now in the way of train service.

## A Well Painted Building Leaves a Good Impression

on the minds of other people, and usually stamps the owner as being both progressive and prosperous. Paint is one of the commodities that, rightly used, is at once a pleasure to the eye and frequently a benefit to the man having it done. Good paint will cover a multitude of building sins, but the paint must be good or the sins won't remain long covered.

### Does your House or Barn need Painting?

The Masuary paint is the best on earth. Takes less to cover a given space than other brands, and will not fade or look rusty almost as soon as put on, which a cheap paint invariably does. The best paint you can buy is the cheapest in the long run. The mixture must contain good pigment, pure lead and good oil. That's the only kind that is put into Masuary paint. Small cans from 10c each up to small kegs, with all the in-between sizes. Every color is obtainable.

## Sure Relief for Women.

No. 18 Central Ave.  
HOT SPRINGS, ARK., April 30, 1903.

Eighteen months ago I was so completely run down that my body ached from head to foot. My back seemed to break in two and I suffered intense pain in the lower abdomen. I could not afford to lay off and take a rest, and no medicine helped me any.

A friend told me how much Wine of Cardui built her up and advised me by all means to take it. The day I took the first dose the recovery of my health began. It was nearly three months before I was entirely cured, but at the end of that time I was in better health than I had been for seven years.

I look on Wine of Cardui as the most blessed medicine that a woman could possibly take when she feels sick and tired of life.

**Anna Nelson**  
ORATOR, WEDNESDAY CHAUTAUQU CLUB.

## WINE of CARDUI

Mrs. Nelson describes the condition of thousands of women. That condition comes by slow stages. Usually the important function of menstruation is at first slightly irregular. Then comes the painful periods. Bearing-down pains and ovarian inflammation follow. Finally the nervous system gives way and the whole system has become affected and the pains rack the body from head to foot.

Wine of Cardui is a menstrual regulator of established reputation. No woman who takes it suffers as Mrs. Nelson suffered. It gives speedy and complete relief from the torturing menstrual agonies which are making so many women invalids today. Do not let yourself come to the pitiable condition Mrs. Nelson describes.

Secure a bottle of Wine of Cardui from your druggist today and begin treatment immediately.

## DISMISSAL OF BOWEN

FOLLOWS THE EXONERATION OF  
ASSISTANT SECRETARY OF  
STATE F. A. LOOMIS.

### ALLEGATIONS NOT PROVEN

MINISTER TO VENEZUELA FAILS  
TO SUBSTANTIATE CHARGES  
THAT HE HAD MADE.

Washington, June 21.—The dismissal of Herbert W. Bowen, for some years United States minister to Venezuela, and the exoneration of Assistant Secretary of State Francis A. Loomis from the allegations brought against him, are the outcome of the Bowen-Loomis controversy, which has attracted widespread attention for many months past. This disposition of the case is made by President Roosevelt in a letter addressed to Secretary Taft, made public Tuesday night, approving Mr. Taft's findings and conclusions in the case. The president scathingly arraigns Mr. Bowen, declaring that his conduct is especially reprehensible; that Mr. Bowen asked one of his witnesses to enter the employ of one corporation for the purpose of "in plain words of stealing documents which he hoped might incriminate Mr. Loomis, and Mr. Bowen has for many months, indeed for the last two years" devoted himself "to hunting up scandal and gossip until it became a monomania and caused him to show distinct disloyalty" to the country he represented.

The president says he had hoped to promote Mr. Bowen, as during much of his service he had done good work, but that his usefulness in the diplomatic service is now at an end. The president adds that he would direct that Mr. Bowen's resignation be requested, but for his statement that he would consider a resignation as an admission of misconduct and the dismissal is therefore ordered.

### Furnished Documents to the Press.

The letter quotes correspondence and testimony. The president says it appears that Mr. Bowen, while minister, secured publication attacks upon Mr. Loomis and furnished to the press documents pending before the state department for approval and that his explanation is inexcusable and shows his entire "unfitness" for the service. Even if Mr. Loomis had been guilty, said the president, Mr. Bowen's conduct would have been unpardonable. The letter quotes correspondence and testimony.

The president quotes from one letter in which Mr. Bowen explains that certain charges against Mr. Loomis were submitted to Secretary of State Hay in 1904 and unacted upon by that official for a year, and says that by implication, at least, it looks as if Mr. Bowen accused Mr. Hay also of misconduct.

The report of Secretary Taft on the case on which the president's action is based is a voluminous document reviewing the charges and evidence taken.

In his report Secretary Taft says that there was nothing dishonorable in the transactions in which Mr. Loomis figured, but that he was not discreet. The report says that Mr. Loomis was not justified in becoming personally interested in any of the schemes, either with a mere nominal interest or substantial interest. He holds, however, that Mr. Loomis has been "most cruelly slandered," commends him for the self-restraint with which he has met the charges, and points out that Mr. Loomis' bitter experience in this case makes it unnecessary to point out the moral that a minister cannot afford in the country to which he is accredited to make personal investments, etc.

### TWO KILLED IN A WRECK.

Three Other Persons Badly Hurt Near Kenora, Man.

Winnipeg, Man., June 21.—The fast westbound express of the Canadian Pacific and an eastbound stock train collided head-on at 5 o'clock p. m. twenty miles west of Kenora, resulting in a bad smashup of rolling stock.

Engineer Perry of the express and F. Stacey, express messenger, both of Winnipeg, were killed.

Bertram Watt, fireman, is seriously injured.

Sam Bird, engineer of the stock train, and B. A. Parsons, mail clerk, also were injured. Four cars of stock were overturned.

Railway officials state that no passengers were killed or injured.

Misunderstanding of orders is supposed to have been the cause of the wreck.

### FOR USE OF NAVAL MILITIA.

Federal Steamer Fern Will Be Sent to Duluth.

Washington, June 21.—Representative J. Adam Bede was at the navy department conferring with the officials relative to sending the United States steamer Fern to Duluth for the use of the naval militia of Minnesota. The present programme contemplates that the vessel will be turned over to the militia at some point en route to be taken by them the rest of the way. The Fern is now at Norfolk, Va., being repaired to fit her for the cruise. She will be taken through the St. Lawrence and the Great Lakes.

## END OF THE STRIKE IS AT HAND.

Indications Point to Early Collapse of Struggle in Chicago.

Chicago, June 21.—Practically no progress was made Tuesday toward a settlement of the teamsters' strike. The committee appointed Monday night by the teamsters' joint council divided itself into subcommittees, all of which made calls on different employers, trying to arrange some method of ending the difficulty. Their work was not completed at night, and no definite agreement with the employers has been reached. The subcommittees will continue their missionary work.

On many sides there are indications that the end of the strike is at hand. The express companies, for the first time since the strike commenced, resumed the deliveries of produce to the commission houses, and the union teamsters employed by these commission houses who had all along threatened to strike if such deliveries were made by the express companies with nonunion drivers, or accepted by the commission men, offered no objection and continued at work as usual. Several business houses reported that individual teamsters had applied to them for their old positions, and a few of them have been reinstated. There has, however, been no official action on either side which seems to foreshadow the calling off of the strike.

### ON THE MITCHELL CASE.

Oregonians Seem Decidedly Averse to Serving as Jurors.

Portland, Ore., June 21.—The case of the United States against United States Senator John H. Mitchell, indicted in connection with the land frauds in this state, was called in Judge De Haven's court Tuesday. The greater portion of the first session of the court was devoted to hearing the excuses of jurors who desire to escape the duty of passing upon the guilt or innocence of the aged senator.

## ACCUSED OF FORGERY

DEPOSED PHILADELPHIA CITY OFFICIAL IS PLACED UNDER ARREST.

Philadelphia, June 21.—The arrest of John W. Hill, who resigned last week as chief of the bureau of filtration, on the charge of forgery and falsifying certain books and papers belonging to the city and the annulment of a \$700,000 contract held by D. J. McNichol & Co., were the dramatic developments Tuesday in Philadelphia's sensational political upheaval. Hill entered bail in the sum of \$10,000 for a hearing. An interesting feature of the case is that Stuart Wood of the firm of R. R. Wood & Co., which concern has furnished iron piping for the filtration system, who is a member of the committee of seventy which is fighting the Republican organization, became Hill's bondsman. The arrest of Hill is the third that has occurred in connection with city contracts since the mayor began his fight for municipal reform. The warrant charges Hill with having committed forgery, in that he made or caused to be made a statement giving a false estimate of the work done by the firm of D. J. McNichol & Co., on the filtration plants, and also with falsifying certain books and papers of the city for the purpose of defrauding the city.

The rescinding of the \$700,000 contract held by McNichol & Co. caused consternation in political circles. In revoking the contract the mayor notified the director of public works to immediately take steps to advertise for bids for the work and material remaining to be done and supplied. The original value of the contract was \$500,000, but on March 17 this was increased to \$700,000 by a supplementary contract. Up to date \$213,477 has been paid for work done.

Hayes of the Grand Trunk, William Babcock of the Lackawanna lines, James E. Gorman of the Atchafalaya, Topeka and Santa Fe, C. A. King of the Chicago and Alton, J. A. ### SPANISH CABINET RESIGNS.

Action Follows Rejection of a Vote of Confidence.

Madrid, June 21.—The entire cabinet has resigned and its resignation has been accepted by King Alfonso.

The resignations followed the rejection of a vote of confidence, introduced in the chamber of deputies by Deputy Llorens. Senor Besada, minister of the interior, in supporting the motion, said the cabinet had the confidence of the crown and was backed by public opinion, but it remained to be seen whether it had the requisite parliamentary majority. The minister severely attacked Senor Maury, former president of the council, charging him with clandestinely fighting the government. The motion was defeated by a vote of 204 to 45.

Don't Be Content With Relief When There is a Certain Cure.

Don't be satisfied with mere relief, Brief freedom from backache; The pain returns when you stop the medicine.

Get a remedy that cures. Doan's Kidney Pills make permanent cures.

Testimony of Brainerd people proves it.

Here's a Brainerd case: Mrs. S. Brain, of 601 S. 10th St., Brainerd, Minn., says: "I could not do otherwise than endorse Doan's Kidney Pills, and time after time I have recommended them to persons suffering from kidney trouble. I learned the value of this remedy through experience. When I first got Doan's Kidney Pills at H. P. Dunn & Co.'s drug store I was suffering from severe symptoms of kidney complaint. There was a constant dull aching in my back and the kidney secretions were irregular and distressing. From both these causes my rest was broken at night and in the morning I was usually languid and all tired out. Doan's Kidney Pills made a great change in my condition and after continuing the treatment I was so vastly improved that I felt warranted in recommending this remedy through the local papers. I have never changed my mind about Doan's Kidney Pills and have also found that Doan's Ointment is unequalled for itching and bleeding hemorrhoids. Both these preparations should be known to every sufferer.
